Start by choosing your solution area:

Apps and Infrastructure

Data and AI

Modern Workplace

Business Applications

Stand out with Microsoft's training and certification

- Expanded training and certification beyond individual technologies puts the focus on the skills and concepts needed for specific job roles.

- Hands-on training inspired by working professionals teaches you how to apply learnings in today's demanding IT environment.

- Certification validating your next-level skills demonstrates the value you provide to your team and organization.

Define your learning approach

- Fundamentals certification validates your foundational understanding of Microsoft technologies.

- Role-based certification validates your technical skills required to perform industry job-roles on Microsoft platforms and technologies.

- Specialty certification validates your deep technical skills and ability managing industry solutions, including 3rd party solutions, on or with Microsoft platforms.
